

Cash Back Mortgage Protection

Indexed Universal Life Insurance

Lifetime Protection With Built-In Flexibility

Most people believe life insurance costs three times more than it actually does. The truth is, protecting your family may be more affordable than you think.

Losing someone that you love is always a struggle — and unexpected financial burdens can make this time even more difficult. Life insurance is a way to help ensure that your family will be taken care of financially, even when you are gone. Purchasing life insurance is a smart way to provide for your family in case of your death — and it can also provide benefits while you are living.

Life Insurance Protection

IUL offers flexible death benefit protection. In the event of your death, the death benefit is paid directly to your beneficiaries, generally income tax-free, who can use the money to help with any financial needs.

Cash Value Accumulation Potential

Your premiums can do more than simply provide death benefit protection. Unlike term insurance, indexed universal life insurance offers tax-deferred cash value growth with two separate interest accounts. You can allocate premiums to either or both.

Declared Interest Account

Premiums earn an interest rate declared by the company,
guaranteed to be no less than 2%.

Stable, predictable growth

Indexed Interest Account

Premiums earn interest based on the performance of the
S&P 500® Index. 0% floor.

Growth potential with downside protection

This policy isn't designed to win short-term. It's designed to protect first — and grow steadily over decades when markets cooperate.

The Cash Back Advantage

Over time, a well-funded IUL policy may accumulate significant cash value. Many policyholders find that after 20 or 30 years, the cash value may approach or exceed the total premiums paid.

At Year 20

Many policyholders choose to access their cash value to help pay off the remaining mortgage balance or at least a big portion of it. By doing this you save some serious money by avoiding paying an additional 10 years of interest.

At Year 30

If you've maintained your policy for the full mortgage term, you may collect a significant amount of cash accumulation — your home is paid off and you have money back in your pocket, or you can decide to keep your insurance active for the rest of your life. You have options and that's a great thing.

Living Benefits — Included at No Additional Cost

If you are diagnosed with a critical, chronic, or terminal illness, Living Benefit Riders may give you access to an early (accelerated) payout of the policy death benefit. The best thing is, these Living Benefits are included at **no additional cost**. Having access to this money could make an important difference in the quality of your life and the lives of your loved ones.

If you experience a qualifying condition, you may access a portion of your death benefit while you're still alive. These funds can be used for **any purpose** — to pay your mortgage, medical bills, household expenses, or income replacement.

Critical Illness

Access funds upon diagnosis of a qualifying condition

Chronic Illness

Access funds if unable to perform daily activities

Terminal Illness

Access funds if diagnosed with a terminal condition

Critical Illness Accelerated Death Benefit Rider

A Critical Illness qualifying event is when a physician certifies that the insured has had one of the following conditions in the last 12 months:

- Amyotrophic Lateral Sclerosis (ALS)
- End Stage Renal Failure (Kidney Failure)
- Invasive Cancer
- Major Organ Failure
- Myocardial Infarction (Heart Attack)
- Stroke

Chronic Illness Accelerated Death Benefit Rider

A Chronic Illness qualifying event occurs if, within the last 12 months, a physician has certified that for a continuous 90-day period the insured:

- Is unable to perform (without substantial assistance from another person) at least two activities of daily living due to loss of functional capacity; or
- Requires substantial supervision to protect himself/herself from threats to health and safety due to severe cognitive impairment.

Terminal Illness Accelerated Death Benefit Rider

A Terminal Illness qualifying event occurs when a physician certifies that the insured has a terminal illness — defined as a medical condition that, with a reasonable degree of medical certainty, will result in the insured's death within 12 months from the date the physician signs the statement of proof of terminal illness.

The requested benefit acceleration will be reduced by an administrative charge and an actuarial discount, based on the insured's life expectancy at the time of the request. Calculated benefits may result in no payment. Please review the riders for complete details.

*Your family's financial security shouldn't depend on your health staying perfect.
Living Benefits help protect you while you're still here.*

How Living Benefits Can Help Protect Your Mortgage

Imagine being diagnosed with a critical illness and suddenly unable to work. The mortgage doesn't stop. The bills don't stop. Living Benefits let you access a portion of your death benefit while you're still alive — giving you money to cover mortgage payments, medical bills, and everyday expenses during one of the most difficult times of your life. The money is yours to use however you see fit — no restrictions, no questions asked.

Flexibility Over Time

- ✓ Adjust premium payments within policy limits as your budget changes
- ✓ Access cash value through policy loans or withdrawals when you need it
- ✓ Use accumulated value later in life to help offset future premium payments
- ✓ Maintain coverage into retirement — protection that doesn't expire

Term Insurance vs. Cash Back IUL Protection

Term Life Insurance	Cash Back IUL Protection
Expires after set term	Lifetime coverage
No cash value	Cash value grows over time
Premiums gone when term ends	Cash back potential at Year 20 & 30
Coverage stops if you outlive it	Protection continues into retirement

Why Families Choose This Plan

- ✓ **Transferable**
Your plan moves with you if you sell or refinance
- ✓ **You Own It**
This is your policy — not the bank's
- ✓ **Living Benefits**
Access funds for critical, chronic, or terminal illness
- ✓ **Beneficiaries Decide**
Your family chooses how to use the benefit
- ✓ **Level Premiums**
Your price never goes up — your coverage never goes down

Life insurance isn't just about death — it's about living with confidence,
knowing your family is protected no matter what happens.
